MD SHARIK

Full Stack Developer (MERN)

Bihar, India | sharikmuz2020@gmail.com | +91 7562057983 | LinkedIn | GitHub

SUMMARY

Computer Science Engineering student with hands-on experience building full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js). I have worked across both frontend and backend, designing responsive user interfaces, integrating REST APIs, and writing clean, well-documented code. Comfortable using Git for version control and collaborating through the full development cycle, from planning to deployment. Currently looking for an entry-level Full Stack Developer role where I can contribute to real projects and keep growing as an engineer.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, React.js, Bootstrap, and Tailwind CSS
- **Backend & Frameworks:** Node.js, Express.js, and REST API design
- **Databases:** MongoDB, SQL and Firebase.
- **Version Control & Tools:** Git, GitHub, Postman, and Vercel
- **Languages:** Java, Python, JavaScript, C, C++, and Data Structures & Algorithms (DSA)
- **Practice:** Actively practicing Java on HackerRank and DSA fundamentals on LeetCode.

PROJECTS

HostelHub – Hostel Management Web Application *React.js, Node.js, Express.js, MongoDB*

- Built a full-stack hostel management system with separate login and dashboards for students and administrators.
- Created a room allotment module covering 12 rooms across 3 hostel blocks, with real-time availability tracking.
- Added a complaint management system so students can submit, track, and resolve maintenance issues.
- Built an admin panel to manage students, rooms, bookings, and complaints from one place.
- Implemented a payment feature to handle hostel-related transactions.
- Deployed the application on Vercel and resolved build configuration and branch-related deployment issues along the way.

Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, REST APIs
Live Demo: Vercel | Repo: Github

Cloud-Based File Storage System *Node.js, Express.js, MongoDB*

- Built a web-based file storage application with secure user authentication.
- Added file upload, download, delete, and folder creation features with a simple, intuitive interface.
- Designed REST APIs to handle all backend file and folder operations.

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

Student Management Web Application *Node.js, Express.js, MongoDB*

- Built a web application to manage student records, supporting create, read, update, and delete operations.
- Designed REST APIs for backend data handling and storage.
- Delivered a simple, responsive interface for managing records efficiently.

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

Personal Portfolio Website *HTML, CSS, JavaScript*

- Designed and built a personal portfolio website from scratch to showcase my projects and technical skills.
- Created a fully responsive UI, refining the layout and usability across desktop, tablet, and mobile screens.

Repo: Gihub

ACHIEVEMENTS

- National Cadet Corps (NCC) Cadet – recognized for discipline, teamwork, and leadership.
- Gold Medalist in Athletics at the college level.

EDUCATION

Bachelor of Technology in Computer Science Engineering (B.Tech) 2023 – 2027

- Malout Institute of Management and Information Technology (MIMIT), Malout, Punjab – affiliated with Punjab Technical University (PTU)

Intermediate (12th), BSEB 2022

- R.K.B +2 High School, Bihar
